## POWER BREAK STALLS TRAFFIC

Tram travellers were stranded on street corners when power failed for 45 minutes yesterday. Three street cars sit powerless on Jasper avenue as citizens start out for home on foot or by taxi. Transit system threw seven extra gas buses into breach, police traffic department directed confused motorists at busy lightless intersections. Break was caused when relays on transformers "tripped."

## Murder Hunt Trail Lost In Winnipeg

WINNIPEG, Aug. 19.—(CP)—Detective Inspector David Nicholson said today there is a "strong possibility" that Donald Henderson of Clive, Alta., wanted on a murder charge in Calgary, still is in Winnipeg.

Henderson is wanted in connection with the murder of 24-year-old Yvonne Levesque of Fletcher Creek.

A lead into Henderson's whereabouts petered out after police investigated the theft of a truck from Walter Goral of Winnipeg. It was first suspected that the truck, reported stolen Tuesday, had been taken by the wanted man.

NO CONNECTION  
Winnipeg police said it had been definitely established that Henderson was not connected with the theft of the truck.

Late Wednesday, police found the car Henderson used to escape from Calgary.

This left Winnipeg police with a report that Henderson had last been seen early Wednesday morning leaving the car in which he escaped from Calgary. Police discounted an unreliable anonymous report that he had been staying in a certain rooming house.

MAY BE WORKING  
Chief Constable Charles MacIver of Winnipeg said it was thought Henderson might have gone into the harvest fields, where it would be difficult to detect him.

It was known, however, that he had not gone into the fields through the local employment office.

RCMP still are checking a possible link between the known fact that Henderson was or had been in Winnipeg and the disappearance of the Canadian Lloy Campbell, 21, of suburban Transcona.

Campbell was last seen Monday at Grand Beach, 50 miles north of Winnipeg, when he parked his car and went into a bath house.

## Three Drown In Northland

DAWSON, Y.T., Aug. 19.—(CP)—Three men drowned at nearby Stewart City when a motor launch loaded with women en route to this city's 31st anniversary celebration overturned in the Yukon River.

The drownings occurred Wednesday and were reported last night. No other details were available and names of the victims were withheld pending notification of next-of-kin. It was not known how many women escaped from the launch.

The men were crew members of the SS Whitehorse.

The RCMP was busy also locating a Fairbanks, Alaska, couple missing on a flight to Dawson for the celebration. RCMP officers reported yesterday they had found the pair, Mrs. Regina and Hilda Schenck, near their light plane, a Cessna, on a Yukon River tributary north of Snag.

Meanwhile Dawson continued its usually colorful festivities, with a parade of floats depicting early Yukon days, sports of all kinds and a huge ball in the historic Arctic Brotherhood hall.

France Forest Fires Said Purposely Set

PARIS, Aug. 19.—(Reuters)—In a forest in southwestern France, several acres of forest were destroyed or seriously damaged about 250,000 acres of forest during the last 40 days.

The French interior ministry has issued a warning that the penalty for setting fire to forests or crops may be life imprisonment with hard labor.

TECHNICIAN at city power house checks controls during yesterday's power failure as other workers race to track down location of failure. Workers succeeded in bypassing trouble spot to send power surging back through city's arteries.

## Upland Bird Season Opening Seen Oct. 5

(See other story on page 13.)  
Good news came today for Edmonton hunters. Ottawa announced opening season for Edmonton district for Sept. 17.

Meanwhile, it was reliably learned upland birds will be fair game on Oct. 5.

Reports from game associations here, whose recommendations are usually recognized by the provincial game branch, indicate that Hungarian Partridge will this year be opened to the entire province.

Authoritative game sources here say this year is almost the top of the bird cycle with upland game being most plentiful throughout the province. It was learned that the bag limit on prairie chickens will be increased to 10 this year in that section of the province from Edmonton north.

PHEASANT SEASON  
Pheasants may have a straight 18-day season in the north with the same limit, three as the south. Ruffed grouse are expected to be opened throughout the province.

Birds (both upland and migratory) should be very plentiful this year game enthusiasts here report. This is given as the reason for increased bag limits.

Limits on animal game are the same as last year.

## Morrow-Tait Reaches U.K.

LONDON, Aug. 19.—(CP)—Mrs. Margaret Morrow-Tait today landed at Croydon airport here, completing the first flight around the world by a woman in a single-engine plane. She landed one year and a day after starting the flight.

Mrs. Morrow-Tait's single-engine plane landed at Prestwick, Scotland, on Tuesday at 3:05 p.m. (7:05 a.m. Edmonton time) and she started an hour before flying on to London.

The model-turned-pilot was held up by weather in Iceland and so prevented from finishing the trip on the anniversary.

Flying with her as navigator is Michael Townsend 26.

Irish Poet Dies  
CORK, Eire, Aug. 19.—(Reuters)—Denis H. O'Sullivan, 69, the Irish "Boatman Poet" died last night at his home at Glencarriff, County Cork.

## Power Here Stands Still 45 Minutes

Transformers Trip When Setting Is Placed Too Low

Electricity-dependent Edmonton literally stood still for 45 minutes yesterday when power failed at 3:12 p.m.

Power blackout, which inconvenienced thousands, was caused when relays on transformers "tripped" owing to "too low setting."

Power plant officials described the break as "the most serious interruption of service in recent years."

NO WATER FOR FIRES  
For at least 10 minutes the city was without water for fire protection.

The breakdown left pumping and auxiliary stations without power and the main generators were forced out of service because of lack of water.

Power from Calgary got the transformers working after about 10 minutes, again making available the water pumping service which protects the city from fire.

W. J. McFarland, power plant superintendent, explained that the protective control equipment at the plant recently had been moved to another panel and "had been set too low."

PREVENT REPETITION  
He said "We should have been more liberal in the way we allowed the breakdown, were the transit action had been taken against a recurrence of the trouble."

All city services, with exception of telephones were out of operation during period of the power failure. Telephone system switched to its own power supply when the breakdown occurred.

Major civic services affected by the breakdown were the transit system, electric light and power, and water supply.

They are now being investigated. Thousands of persons were stranded in automobiles during the break, and taxi companies were unable to cope with the volume of calls.

## Pantless Man Pants Plea In Want Ads

Somewhere in Edmonton there is a man who is trousersless. Yes, sir, he lost his pants.

"Same today as yesterday," he says. "That means the mercury is only expected to reach 70 above."

"Of course, we'll have our usual bright skies and light winds," he added.

Cross-Canada temperatures for yesterday:

## Albertans Spending More and More Money

Albertans are spending more money this year than last to build houses, cover cheques and buy all types of wholesale goods and machinery.

## Spy...

By the Staff

### ON HOLIDAY

Capt. James A. Bell, manager of the Edmonton airport, arrived in Montreal this morning by TCA where he will embark tonight for London for a month's vacation in England and Europe. He is accompanied by Mrs. Bell.

### TO CONVENTION

In Winnipeg this week, attending annual convention of the Alberta "Lumber and Growers' Association," is a group of Edmonton florists headed by W. Hornbeck, chairman of the association for Alberta.

Attending the prairie convention also are Amy Lenson and Mrs. Lenson, Mrs. Hornbeck, Walter Ramsey, William Slocombe, Mrs. F. Allen and Miss Rene Hobbs, director at large.

**IN CONFERENCE**  
Sales conferences will be held here today by executive officers of Parkhill Bedding Ltd. Attending the conference are H. R. Parkhill, Winnipeg, president of the company, C. E. Chadwick, Winnipeg, sales manager, and J. H. Julien, Alberta representative.

### DRILL STOPPED

Dr. Robert Wilson, Edmonton dentist, was telling some friends about yesterday's power breakdown when he said, "Spot, had a patient in the chair when the juice went off. Drilling operations had to be suspended before the drill struck the molar porous zone."

## Homes Asked Casey Answers For Students School Critics

Edmonton is due for another invasion soon.

Next month nearly 4,000 university students will be back in town for the 1949-50 winter session at the University of Alberta.

Already the Students' Union has set up a students' housing bureau to find accommodation for them.

More than 1,000 students will probably be depending on the bureau to find them housing for the term.

All kinds of accommodation are needed, from room and board for such students as are coming in at the Students' Union office in Athabasca Hall, Mrs. L. V. Weeks is in charge of the bureau.

## Air Cadet Group Meets

More than 100 delegates and officers are expected here to attend the Oct. 27 annual meeting of the Alberta branch Air Cadet Group, held at the University of Alberta.

Association meetings are staggered at principle points across Canada so that league president and general manager may attend each of them.

Syllabus for next season's international air cadet exchange will be prepared for these meetings and final plans for the fourth annual exchange will be announced later.

This season's youthful air cadets of Canada and the United States exchanged family visits in each country as well as in the United Kingdom. British air cadets also participated in the interchange.

### Bracelet Gone

Grace Johnson, 3746-108 street, was sent to police today the theft of a gold bracelet sometime between Sunday and Wednesday. The bracelet is valued at \$40. It was kept in a dresser drawer.

### LAW SUIT FOLLOWS

## Check of Tax Record Shows Alleged Forgery

Checking tax records resulted in recent discovery of an alleged forgery in a land titles agreement transacted more than 20 years ago.

Joseph A. Doby of Vancouver, has filed suit against Percy M. Windover of Camrose to recover mine and mineral rights on a quarter-section of land he sold more than two decades ago. Story begins in May, 1919, when Mr. Doby first bought the land, the southwest quarter of section 44, township 45, range 14, west of the fourth meridian—about 33 miles southwest of Camrose.

Mr. Doby who filed statement of claim against Mr. Windover at the court house, said the land with exception of mine and mineral rights to Mr. Windover in 1923.

He claims that some person or persons unknown, altered the transfer and struck out "mines and minerals," substituted the word "coal," and altered initials "J.A.D."

This is indicated today in a statistical report issued by the provincial department of industries and labor. The report covers the first five months of 1949.

Value of construction contracts issued during the period jumped to \$43,573,100, a 123 per cent increase over the value of contracts issued during the same period of 1948. Last year's figure was \$19,585,500.

In four cities of the province, Edmonton, Calgary, Lethbridge and Medicine Hat building permits issued showed an 80 per cent increase during the first five months of 1949. Last year permits valued at \$13,261,354 were issued compared to \$23,853,177 this year.

**CLEARINGS UP**  
Bank clearings in the province showed a 26 per cent increase, with \$264,478,045 handled by Alberta banks from January to the end of May 1949, compared with \$209,905,126 in the same period last year.

Customs receipts were up 20 per cent, with a value of \$2,322,470 last year compared to \$2,822,470 this year.

Gross sales of wholesale goods boomed 22 per cent over last year's figures, with \$149,326,612 worth of goods handled by wholesale houses this year. Last year's gross sales for the same five month period were valued at \$122,686,322.

Machine companies recorded \$24,245,505 in sales this year, an increase of 36 per cent over last year's \$17,816,146 figure.

Tourist trade showed a nine per cent increase, jumping from 8,673 cars entering customs ports last year to 9,400.

Number of visitors to national parks was increased by 56 per cent putting him in by the province last year and 109,948 tourists here from January to the end of May this year.

Increased government school grants that may be possible as a result of buoyant oil revenues will not be known before next year.

Alberta's education minister, H. Ivan C. Casey, said today.

"The minister had been asked to comment on statements by officers of the Students' Union of the University of Alberta Municipalities, declaring educational grants as 'entirely inadequate and out of all proportion to increased operational costs of schools.'"

Mr. Casey explained the large increase in revenues from oil leases and royalties is something of a very recent nature.

**BUDGET TIME**  
School appropriations for this year had to be made on the basis of known revenue at the time the provincial budget was prepared, he pointed out.

"I have no doubt about oil revenue being a factor when appropriations for municipal schools are made for next year. It was not possible to foresee this increased revenue when the last provincial budget was drawn up. Our department cannot spend beyond its appropriation for the year," he explained.

Mr. Casey also pointed out that government funds for social services, such as old age pensions and health services, have been considerably increased.

**Apple Production Up in Ontario**

TORONTO, Aug. 19.—(CP)—The statistics branch of the Ontario agriculture department reported today that the estimated crop of apples for Ontario this year is 986,000 barrels, an increase of 26 per cent over the 779,886 barrels harvested last year.

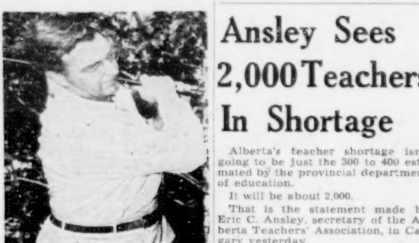

Crapes will be down about 10 per cent. Peaches are expected to be 15 per cent higher.

### Four Months

Rita Demond, no fixed address, was sentenced to four months hard labor in Port Saskatchewan jail in police court here today. She pleaded guilty to a charge of vagrancy.

THERE'S SOUL-SEARCHING plenty here as Dr. Clarence Eastwood (left), and Dr. D. T. Nikiforuk, Vegreville, total up strokes they took in Dental Society golf tourney at Country Club yesterday. About 50 competed in meet.

ANY GOLF club's a good driver if you know how to swing it. That's the view of Dr. W. A. Johnson of Port Saskatchewan as he tees off in the annual Dental Society golf meet at Country Club course.

Mr. Ansley said the shortage this year would be worse than last year, unless there is an increase in the number of teachers coming from Saskatchewan, Manitoba and the Maritimes where salaries are lower.

Estimated 2,000 lacking teachers will be the "real" teacher shortage, according to Mr. Ansley.

This includes married women and pensioned teachers instructing on a temporary basis, and "alters," or supervisors of correspondence courses conducted in rural schools.

Provincial department of education officials earlier this summer estimated the teacher shortage at 300 to 400.

Last term, the Canadian Education Association estimated Alberta's teacher shortage at 804 due to schools being closed, unqualified instructors, and temporary amalgamation of rural schools.

Figure of 804 teachers required included about 400 supervisors or "alters" whose job it is to supervise classes in rural schools where students take correspondence courses instead of being taught by trained teachers.

Actual shortage of teachers will not be known until the end of September.

## Lethbridge Plans Big Celebration

LETHBRIDGE, Alta., Aug. 19.—(CP)—Invitations to over 800 people across Canada and also in the United States were mailed today by the Lethbridge Chamber of Commerce for the three-day celebration slated for the city Sept. 23.

On that day, the Lethbridge Chamber will mark its 60th anniversary, celebrate irrigation day, and the new Dominion Science Service laboratories will be officially opened.

It was occasion of monthly get-together of Edmonton and District Dental Society, attended by 51 members and invited guests.

Dr. George Brass was the star of the afternoon, copping first prize for two birdies, on the first nine.

But it was Dr. Bill Murray of Edmonton who made manufacturers of golf courses proud with a prize for losing seven balls.

Best dressed golfer was Dr. Stan Hodgson.

Low gross score prize winner was Dr. Frank Cleall.

Winning team was composed of Dr. Morris Wright and Bill Stevens.

Following the grilling afternoon on the fairways, society members enjoyed a fine dinner meeting at which President Dr. Harold Knight was chairman.

Bulletin Staff Reporter Jack DeLong described his recent aerial trip to Hawaii, Fiji and Australia.

Handsome prizes were donated by Sprague Drug Co., Merrick Drugs Ltd., and Dispensaries Ltd.

EDMONTON BULLETIN, Friday, Aug. 19, 1949

## Northern Survey Boon to Natives

Over 15,000 Indians, Eskimos Undergo X-Ray Treatment

One of the most successful X-ray surveys of Indians and Eskimos in the northwest today is nearing completion.

This was revealed yesterday by Dr. Herbert Meltzer, medical director of the Charles Cammell Indian Hospital in Edmonton.

Started in April, the survey to date has covered thousands of square miles in Alberta, Yukon, North West Territories and the Western Arctic.

More than 15,000 Indians in Alberta have been X-rayed by three technicians who work from the Indian Hospital, branch of the National Health Service.

All Edmonton residents the men are: Donald J. Harkness, chief technician, L. W. Goodall, and George Berg.

"Besides uncovering tuberculosis the survey discovered many cases of cancer," Dr. Meltzer said.

In northern Alberta from Edmonton to the Yukon border 5,000 Indians, about two-thirds of the entire population were examined.

**OVER 10,000**  
By the end of this year the medical directors said they hope to have X-rayed 10,000 of the 15,000 Indians in Alberta.

Provincial borders didn't enter into the question of where the technicians went, Dr. Meltzer assured newspapermen.

"For instance the Athabasca district stretches into Saskatchewan and the Fort Nelson into British Columbia," he illustrated.

Purpose of the mass survey is to try and cut down the incidence rate of tuberculosis among Indians.

Rate of tuberculosis among white people is 21 per 100,000 but among the Indians more than 600 per 100,000, the doctor said.

**1,000 MILES A DAY**  
In covering the districts technicians travelled about 1,000 miles by boat and several thousand by airplane loaned by the RCAF.

Boats were needed to go down the Athabasca River to Lake Athabasca and to Fort Smith.

From Whitehorse to Mayo the teams used aircraft, and took a small portable X-ray unit. From Mayo the team ranged in Dawson City and then returned to Dawson City.

A small beginning was made in 1946 when the Indian hospital was established in Edmonton.

Since then, under the supervision of Doctor Meltzer, the project has grown until within a few years every Indian in the northwest will have been checked for tuberculosis.

Coppermine in the Northwest Territories showed of 219 persons tested 53 had active tuberculosis.

Dr. Meltzer said that eight of these will eventually be brought to Edmonton for treatment and eventual cure.

More than 400 Indian patients were in the Charles Cammell Indian Hospital being treated for the disease.

The Indian Hospital base here is the largest sanatorium in western Canada and the largest Indian Hospital in Canada.

## JOHNSTONE WALKER'S Daily Store News

Saturday Store Hours: 9:30 a.m. to 5:30 p.m.

## NEW FUR COATS OF PERSIAN LAMB SIDES

One of the Season's Most Outstanding Values!

Time was when Persian Lamb coats were regarded the aristocrats of fur fashions and beyond the price limits of most women. But in more recent times furriers have found new ways of salvaging sides of pelts, paws, etc., with the result that you can buy a fur coat made from the less costly part of the pelts for 149.00.

Styled with roll or deep plunging collars, a roomy sleeves and deeper armholes. Slim, straight line fronts emphasize the flare at back satin lined. Sizes 12 to 20. Priced.

**149.50 and 165.00**

**"ORIENT" NYLON STOCKINGS**

The "Orient" Impint is always an assurance of neat trim fit and longer wear. 45 gauge—30 denier with choice of spear or panel heels. Work seams.

• New fall shades: Vagabond, Jack-pine, Banff beige and maple sugar. Sizes 9 to 11. Priced.

**1.65**

**Sale of Washable Algoma SKIRTS**

White and Pastels Regularly 4.95, Clearing

Skirts from which you will take year-round service. They give excellent wear and are hand-washable and easy to press. Penicillin styling with gored and fly fronts.

• Rose, turquoise, caramel, blue and white. 12 to 20. Regularly 4.95. Five Star Saturdays

**2.95**

**"FEATHERLAIN" FLANNEL SPUN-RAYON Fabric**

Regularly 1.25 Yard for 98c

You will find many different uses for Featherlain flannel—dresses, skirts, tailored blouses, etc.—also children's school wear. A spun-rayon fabric in black, navy, mid blue, green, grey, rose, mauve and scarlet. 38 inches wide. Regularly 1.25 yard.

Five Star Special, yard

## Up Fares, Down Service

The civic administration's extraordinary notion that transit systems may be successfully operated on the principle of increasing fares and reducing service has broken out again in the decision to take five street cars out of city runs.

This astounding bit of parsimony will save approximately \$10,000 in operating costs.

But it will also cut 45 trips daily off the service to the South Side and the northeast section of the city.

This curtailment of service will go into effect Sunday.

Coming at a time when the schools and the University are about to re-open and when the vehicles are already jammed to capacity in rush hours, this passion for economy at the cost of good service will strike Edmonton patrons as about the choicest piece of stupidity emanating from the civic block in months.

Of course, the administration will try to compensate for this deletion by speeding up the bus service on the South Side buses and Blue and White cars to a six minute schedule.

But since these lines are already over-

loaded, the prospect of maintaining a faster schedule during rush hours cannot possibly be very bright. There is bound to be thousands who will not get a ride at all.

But the mechanics of the situation and the devices to speed up running time are not important in the apallingly ridiculous principle upon which the change is made.

That principle is that wherever there is a deficit, service should be lopped off.

In other words, the principle to its logical conclusion, transit service should only be given wherever it shows a profit.

To keep the accounts on the black ink side of the ledger is everything. Service to Edmonton people is nothing at all.

The resurgence of this amazing idea, which apparently has been lying fallow in the mind of the administration for months, is so contrary to all reasonable and intelligent definitions of good government that the sooner that general civic survey (which has been lying fallow for more than a year), is revived, the sooner will this city receive sound and effective administration.

## Cost Sixteen Millions a Year

The vigilance of the Alberta government and of cities like Edmonton, demonstrated in their constant efforts to keep rats out of this province, is highly laudable.

The depredations of rats cost Saskatchewan \$16,000,000 a year.

There is no reason to believe that the loss would be any less in Alberta should the animals obtain a foothold here.

This province in being, at present, the only rat-free area on the American continent.

Experts point out that prevention, in this instance as in many others, is much cheaper than cure.

For example, it would be better to spend \$5,000,000 a year right now to keep the rats out than to accept the loss of \$16,000,000 a year once they were established and to pay, besides, the higher cost of attempts to eradicate them.

## Buck Passing on Swimming Pools

If the city council found it compatible with its conscience to include appropriations for new swimming pools in the 1949 estimates, why should it find it impossible to include similar appropriations in the estimates for 1950?

Surely the principle of the thing hasn't changed in the past year.

The only thing that has changed is the urgency with which these pools are required.

Why, then, should a money bylaw be necessary for 1950 when it was not considered necessary for 1949?

The truth is that the city council is obviously passing the buck in the matter of these swimming pools.

And it is passing the buck because it still fails to realize that Edmonton has grown up and that good government costs money.

The city council is afraid to spend money because it is still under the befuddled delusion that Edmonton is still a small town.

It is true that the swimming pool estimates for 1949 were deleted from the budget for the same reason that the

council is now talking about the submission of a money bylaw—because of the fear of talking and thinking in figures commensurate with Edmonton's size and importance.

Mayor Harry D. Ainlay was enthusiastic about the need for new pools last year. Since that time he has mysteriously cooled off.

The parks superintendent urges the dire need for more pool accommodation.

But the council, it is said, may hesitate to budget for this expenditure of some \$250,000 because a "relatively small percentage of the city's population will use the pools."

There could not possibly be weaker reasoning.

The only limit to the extent to which Edmonton people would use these pools is the limitation of their facilities.

Some 20,000 people every week have been crowding into the three pools during the hot weather.

Up to 100,000 people would use them every week if there were enough pools for the purpose.

PICTURE OF A FISHERMAN WAITING FOR HIS TRAIN

## British Settler

Editor, Bulletin—My wife and I read with great interest Stan Ross' article on U.K. immigrants in your issue of Tuesday. We arrived with our son aged 5 on Sunday, July 17, from England.

It is gratifying for us to know that a Canadian can understand that plight so well, he has really got to the point.

We have been fortunate enough to secure a small home, and I have been at work since July 25.

In our opinion Canada is a fine country and more genuine British should be encouraged to come here.

We in our humble opinion agree that Britain is penalizing Canada who is such a good help to the old country.

We sincerely hope for future months' sake that this state of affairs will be amended.

J. F. ROSS.  
9017-153 St.

## Poultry Licenses

Editor, Bulletin—The Bulletin of July 27th last carried news from Ottawa that the Canadian Federation of Agriculture passed resolutions demanding that all poultry and egg producers in Canada be "licensed and controlled."

Once again, by the AFA and the PUA, the farmers are being

asked to buy a "pig in a poke," which will lead to being over-run by more hordes of government inspectors in our farm yards.

Why doesn't the Farmers' Union of Alberta, who are forcing this scheme, come clean and tell its own members and all other 25,000 farmers and wives, about these proposed licenses? Wouldn't that be the honorable thing to do?

Farmers, the enemy is at our gates with their "wooden horses," and we are going to be taxed enough to allow them to bring it in? Ask your wives.

ROBERT BRIDGE, ALA.

## Programs

Editor, Bulletin—In your letters to editorial page an "In-Listener" (August 6) complains of the mediocre fare dispensed to the listening public. Saying later on "most Canadian stations are unimpressive to the average listener."

Then he goes on to say "people are fed up with jazz, soap operas, cheap advertising and hackneyed semi-classical."

Now, to my mind he has a point and we should be careful of our programs are to blame. How in the world are people to know what exactly is going to be heard on four city stations when it is perfectly impossible to find out the terms each day which will be put on.

After all, one cannot listen in all day to four different stations to hear what is going to be given. We have to wait and see, and a few friends, etc., and guess at our ears at the unknown terms in which we may be told of future changes items for the day.

One car darted from the inside to the outside lane eight times between 109 street and 117 street. It was driving in the middle lane at a fair rate of speed, but everything passed me.

As for myself I don't intend to cut off supplies of arms which are reaching Chiang Kai-Shek from the British Colony.

Great Britain eyes the Balkans carefully as a growing danger spot today while holding firmly to an attitude of calm resolve in the face of far European developments. Government circles are said to have expected the announcement "German military assistance Slovakia" as a natural step in the move.

1939—10 Years Ago  
A Reuters News Agency dispatch today quoted Japanese military spokesmen at Canton as announcing Japan's intention to blockade Hong Kong by land "to cut off supplies of arms which are reaching Chiang Kai-Shek from the British Colony."

Great Britain eyes the Balkans carefully as a growing danger spot today while holding firmly to an attitude of calm resolve in the face of far European developments. Government circles are said to have expected the announcement "German military assistance Slovakia" as a natural step in the move.

1939—50 Years Ago  
Little and Co. have burned 400,000 lbs. of dynamite and have 120,000 more to burn. William Gordon, trader, arrived from the Long Portage on Friday by way of the Landing.

Dr. Potts of the Bradford Mining Co., returned from the Peace River today.

1909—40 Years Ago  
The cost of laying the proposed traffic deck on the high level bridge together with the cost of the approach viaduct is estimated at about \$1,000,000.

Two thousands lives were lost as a result of the great flood of the river overflowed and flooded the city.

1919—30 Years Ago  
George Gaston Guen, charged with having collected evidence against Edith Cavell, was questioned by the court yesterday in Paris as to his movements in London.

Having given away \$350,000 during his lifetime, Andrew Carnegie has an abiding place as one of the great philanthropists of all time.

1929—20 Years Ago  
Nearly 300,000 acres of land, or about 420 square miles of land, have been settled in the Edmonton district since the first of the fiscal year 1929-30, according to figures given out at the Dominion land office.

The Hague Right Hon. Philip Snowden refused the compromise offer of France, Italy, Belgium and Japan to allow Britain an increased share of German reparations.

## Stan Ross

### Co-op Tax Complaint Is Fully Justified

The co-operatives and their members are still somewhat concerned about taxation in spite of changes which have been made. But the reason they are concerned is the realization of the unfairness of any government taking a cut out of the joint work of any group, then repeating the process when the members use the returns.

On that basis the complaints of co-operatives can be fully justified because no co-operative taxes based upon income are just.

Although co-operatives have been campaigning for years, the general public and the other types of companies do not seem to find anything unfair about a practice which imposes a double tax upon anyone doing business under a charter.

I cannot agree that co-operatives are entitled to any special preference over any other types of companies because basically, a co-operative is no different. In all cases it is a matter of a group of people forming an association to pool their resources and do business.

Some are organized on the basis of the co-operative principle. Others are based upon participation in the business. But in all cases it boils down to a simple matter of doing business as a group rather than as a private trader.

Yet you will find on any street, two grocery stores. One owned by someone who does business in his own name. The other owned by someone who has incorporated under a company name.

One Family Involved  
In both cases a single family may be involved. In both cases the value of the business may be the same and the amount of business may be the same.

Yet the man who did not incorporate pays income tax only upon the profits he makes. The man who incorporated pays a tax on the profits he makes, and then pays a second income tax on those same profits when he draws them out of the company.

Why should it not be possible to impose the income tax upon the profits which each person makes?

If that were done, each of these two stores would pay the same tax on the same amount of profits. As matters stand now they do not.

Then again, take the case of a man with a low income who manages to invest a few dollars of savings in some company. It makes no difference whether it is a big company or a small one. He receives a share of the profits and he may receive some profit. But because of the practice of taxing the company first, this man not only pays taxes, but he actually pays as much as the millionaire because the company is not taxed on the earnings of its shareholders. It is taxed on the earnings of the company.

Thus each shareholder loses the same amount out of each dollar of profit, meaning the little man loses just as much as the wealthy man.

Adopted System  
If instead, we adopted the system of taxing company profits drawn out by the shareholders, as earnings of the shareholders, then the man with a low income would not be assessed less. Actually all company profits must wind up in the pockets of the shareholders.

Therefore, all those profits would be taxed.

Even if they were not paid out, they could still be taxed, not as a separate company, but as earnings of the shareholders which had not been drawn out.

Governments have recognized the inequity of the present system by making special concessions to small businesses or to co-operatives. But the basic error remains.

It is the people who make the profits who are the taxpayers. They are not tax the profits or earnings on the basis of the profits which are in the company, but double taxation for some simply because they prefer to pool their efforts in a legally constituted organization, rather than on a more informal basis.

Why should we tax the things that keep Canadians from going ahead and making the best of their resources and abilities?

Why should it not be possible to impose the income tax upon the profits which each person makes?

If that were done, each of these two stores would pay the same tax on the same amount of profits. As matters stand now they do not.

## Two Edmontonians Prove Yellowhead Route Okay

By Ken Liddell  
Provincial News Editor

CHILLIWACK, B.C., Aug. 19.—The Yellowhead Route is not completely on the map as a highway, but two Edmontonians yesterday proved it is certainly on the ground.

To travel it with a caravan of about 40 cars is one thing, but James H. Mutter and Amos M. O'Hara set out by themselves, covered the 325 miles from Jasper to Kamloops in 15 hours travelling time.

They did it for the fun of it and reported the Trans-Canada Highway Association Yellowhead Route backers, seeking to have it a main continental artery because of its low level routing and strategic military importance, are certainly on the right road.

Arrival in Kamloops of the pair was good news for the caravan yesterday as it set out over British Columbia's mountain roads for Chilliwack to rest up for the last hop into Vancouver.

The trip to Chilliwack, where a civic reception was held and Chilliwack's backing of the route indicated, revealed a great deal of work being done in straightening and black-topping the present road from Kamloops, a distance of 150 miles.

Mutter and O'Hara left Jasper at 6:15 a.m. Wednesday and rolled into Kamloops at 12:15 a.m. Thursday.

They kept a log. They travelled the first hundred miles in rain, lost 30 minutes on a wrong road, an hour and a half for lunch, and half an hour where a culvert was being replaced.

Their time revealed to the backers it could be a leisurely trip for the tourist amid exciting mountain and timber scenery. At the moment,

of course, the road is narrow, for 70 miles only a fire trail. During Thursday's jaunt into Chilliwack unexpected tribute came to Don Chinn, Edmonton motorcyclist who has paced the caravan for the full distance since Monday.

At Boston Bar, Walter Harrington, prominent businessman there, presented Chinn with an honorary membership card and pin in the Cog Grinder's Club. This is an organization of truckers who travel the Fraser Canyon. As membership is open only to those who have completed 100,000 miles of safe driving, it is a select organization.

The caravan is to leave Chilliwack early today for the 60 miles to Vancouver where a civic reception is waiting.

### Chevrier Answers Chamber's Letter

Edmonton Chamber of Commerce has been told by Hon. Lionel Chevrier, minister of transport, that he has no power to deal with the Chamber request to expedite erection of radio range towers on a direct route from Edmonton to Vancouver.

A letter from Mr. Chevrier says the matter should be referred to R. H. D. Howe, minister of trade and commerce.

The Chamber has been pressing for establishment of a more direct air route to Vancouver, to cut both fares and flying time. The request for establishment of radio range stations was designed to hasten the new route.

## Minister Hedges On Oil Exports

Hon. Colin Gibson Evades Subject in Luncheon Talk

Contentious problems of Alberta's oil exports were skirted today by Hon. Colin Gibson, M.C. R.C. V.D. Canada's minister of mines and resources.

The minister was speaking at a luncheon meeting of the Chamber of Commerce and Northwest Chamber of Mines at the Macdonald hotel today.

He outlined the policy and program of the Dominion government to provide assistance in the development of natural resources. Aside from a brief reference to Alberta's contribution to the national economy by the discovery of oil, Honorable Colin Gibson hedged the issue entirely.

### LEARNING SITUATION

"You will understand," he said, "I came out here not as an expert, but in order to learn as much as possible to be in a position to understand and deal with the problems of our department."

The minister added, "Mills and factories throughout Canada will benefit from Alberta's new industry and savings of U.S. dollars will materially help our economic position."

Edmonton to Regina pipeline also was commented on by Hon. Colin Gibson.

"A few months ago I had the pleasure of pressing a button in the Steel Company of Canada plant in Hamilton to start work on pipe for the Edmonton-Regina pipeline," he said.

Extensive mapping projects in Canada going on at present, were revealed by the minister.

Termed as "the largest survey program in the department's history," he said a team of 16 men was working in Alberta.

Field parties on the surveys have a total staff of 1,500, he said.

Analyses of petroleum produced in Canada are being carried out to determine the special treatment necessary to obtain marketable products, the minister said.

Tomorrow Col. Gibson will fly north for a visit to mine fields. He will be accompanied by L. E. Drummond, agent here for North West Territories administration.

### League Asks Assistance in Clearing Camp

Federation of Community Leagues has extended an invitation to Edmonton citizens interested in boys work to aid in clearing camp.

The boys camp has been under construction this year and will be ready for the 1950 season.

It is located at the mouth of the Sturgeon River where it joins the Saskatchewan.

All interested are asked to meet at the Civic Block at 10 a.m. Sunday morning and to bring picnic lunch and either a hand-axe or brush-hook.

## WHEAT POOL MEET SLATED FOR CALGARY

Annual meeting of the Alberta Wheat Pool will be held in November at Calgary, spokesmen at the Edmonton office said today in announcing names of 10 sub-district delegates.

Pool sub-district elections held recently throughout the province returned the following 10 members who will represent their areas at the annual meeting:

W. A. Oliver, Warner; Lester W. Lee, Woolford; A. Van Weiden, Macleod; Jake Frey, Arneson; A. W. Green, Eyemoor; Fred Domoney, Penhold; Charles A. Johnson, Ponoka; Willmot A. N. Fort Saskatchewan; Steve S. Romanchuk, Smoky Lake and Carl Antonson, Pibroch. Several of the delegates were returned by acclamation.

### HE DOESN'T PICK HIS SPOTS

SEATTLE, Aug. 19.—(UPI)—Owen G. Harris, Edmonds, Wash., was driving more than 70 miles an hour yesterday trying to out-distance a state patrolman. He glanced over his shoulder to see how he was doing and crashed against the rear of a sheriff's car. Harris was cited for negligent driving.

### Typhoon Kills 80

TOKYO, Aug. 19.—(AP)—National police headquarters said today 80 were dead and 123 were missing in the typhoon that struck southern Japan early this week.

## MANAGER FRUSTRATES ATTEMPTED BREAK-IN

Shortly after the lights were switched off at night he discovered the two young burglars when he heard a sound at the rear door as the two youths removed the screws from the hinges. He immediately investigated. They were apparently the same pair.

An alert manager of a city pool hall prevented a break-in by two juveniles last night. Steve Latoski, 11321-87 street, manager of Dominion Billards, told police, he surprised two youths in the act of attempting to break into the rear of the premises. They escaped in the darkness.

He said he noticed two youths acting in a suspicious manner during the afternoon in the pool room. After they left, he discovered the hooks removed on the inside of the rear door.

Sir Francis Bond Head after serving as governor of Upper Canada from 1835 to 1837 retired to devote the rest of his life to literary pursuits.

## Council Tackles Erosion Problem

### Red Deer River Threatens Several Drumheller Homes

DRUMHELLER, Aug. 19.—Erosion of the Red Deer River bank threatening several homes along Second Ave. West was placed in the hands of Mayor L. A. Bennett and Councillor Allan Hamilton, at a regular session of the Drumheller city council.

In early discussion both men told colleagues that they were dissatisfied with the response from the provincial and federal governments to an appeal made for some assistance two weeks ago.

The city manager, according to the wishes of the council, was asked to supply further details to both major governments. Councillor Hamilton said that another flood of the river in the early 20s months ago might easily cause sufficient erosion to cause several homes to slide into the river.

**GOVERNMENT ADVISED**  
A letter from the Dominion government said that since the natural resources had been handed back to the province in the early 20s no Dominion government aid would be forthcoming unless the river was used for navigation. A representative of the provincial government conducted on a tour of the erosion threatened area by the Mayor of Drumheller and C. Hamilton intimated that nothing could be done at present.

The serious erosion of the river bank in one of Drumheller's mid-city residential areas was raised over a month ago by C. A. Hamilton and the city manager. Air pictures and a description of the property endangered were prepared by city manager Dunc Robertson and forwarded to the provincial and federal authorities sometime ago.

Mayor L. A. Bennett told the Council last night that now the subject of erosion has been opened it should be sacrificed to a successful conclusion.

## CIVIC POOL AT RED DEER OPENS AUG. 24

RED DEER, Aug. 19.—Mayor C. H. Bush has announced that the new civic swimming pool will be officially opened with a public ceremony, Wednesday, Aug. 24, at 2:00 p.m.

However, if the pool should be completed before that time, Red Deer bathers will be able to use the swimming facilities before the official opening day.

## Devon Legion Gives \$900 Toward Pool

DEVON, Aug. 19.—At a special meeting of the Canadian Legion, B.E.S.L. Devon Branch 247, a cheque for \$900 was officially presented to the Devon and district community swimming pool. The presentation was made by Comrade Eaton, president of the Devon branch, to V. H. Hunter, chairman of the swimming pool project.

In representing the cheque, Comrade Eaton explained that the money was raised at the recent Canadian Legion carnival and dance, which was held in Devon by the local branch.

Mr. Hunter, in accepting the cheque, thanked the members of the Canadian Legion for their wholehearted support and untiring efforts on behalf of the swimming pool and assured everyone that their help is most appreciated.

## Fire Destroys Bellis Farmhouse

BELLIS, Aug. 19.—Fire destroyed completely the farmhouse of Mr. and Mrs. Pete Warwaruk, who live just north of Bellis. Neighbors saw the flames, came to the rescue and saved some of the furniture.

The north wind blew the flames and sparks away toward the field where more buildings would have burned. Mr. and Mrs. Warwaruk and family are living in a granary temporarily.

## New Highway Work Starts

RIMBEY, Aug. 19.—Conversion of a 10-mile strip of old road between Rimbey and Headley into a modern highway has commenced. Contractor C. W. Jackson, of Rimbey, has employed a crew of 25 Indians from Rocky Mountain House to brush a 90-foot right-of-way.

Grading contract for which was let to R. H. Smith, of Saskatoon, is expected to start before the end of the week.

Male herring outnumber the female species, a phenomenon which is unusual in the animal world.

WE'VE CHANGED TO  
KELLOGG'S BRAN FLAKES!  
THEY'RE FRESHER!

GUARANTEED FRESHER!  
NEW! BRAN-NEW! CRISPER AND TASTIER THAN EVER!

Don't miss 'em. Watch your family spoon up these bigger, crisper flakes of nourishing wheat and bran. Toasty-crisp in milk! And guaranteed Kellogg's-fresh!

Try them at no risk! Double your money back if you don't like them. They are fresher than other bran flakes. Send empty container to Kellogg's, Dept. 4-A, London, Ont.

Helpful, too! Contain the bulk many need to keep regular! Try 'em!

**Kellogg's BRAN FLAKES**  
CRISPER! BIGGER FLAKES! KELLOGG-FRESH!  
MOTHER KNOWS A BEST!

Navigation is a big part of every R.C.N. Officer's responsibility. Here Lieutenant C. L. Perrin, R.C.N. (R) of Vancouver, gives a few pointers in chartwork at Esquimalt to Cadet Gillies R. Messier, of Montreal, P.Q., and McGill University; Cadet C. W. Herriott, of Calgary and the University of Alberta, and Cadet R. Siwicki, of Winnipeg and the University of Manitoba.

## Wetaskiwin School Board Well Prepared for Opening

WETASKIWIN, Aug. 19.—Wetaskiwin's School Board is anticipating an influx of students from the municipal school division for the coming school year.

No estimate of the number from outside points is yet available, but it is pointed out by School Board officials that usually they have little idea until schools re-open.

However, it is known a considerable number of students graduated from the higher grades in the division schools and many of these will wish to continue their education.

## NO STAFF CHANGES

Added to that is the fact that never before has the Wetaskiwin high school been so well prepared to accept them and never before has it had so much to offer them, not only in the academic courses but in those courses that are particularly adaptable for farm life.

There are no changes on the high school staff this year and practically all of the present staff have been attached to the Wetaskiwin high school from three to eight, or nine years. The most recent acquisition to the staff having been G. A. Sanders whose time is occupied in teaching shop work which includes draughting, woodwork, concrete, electrical work, and crafts.

Speaking of the new high school itself A. W. Reeves and H. C. Smith, inspectors of high schools, have some very nice things to say in their official report and they have still better things to say of the high school staff itself from Principal O. Massing to the latest addition to the staff. All held superior qualifications and above the average of most high schools in the province.

## 165 LAST YEAR

In 1948-49 registration at the high school was 165 and of these about half came from the division. The school, however, must moderate probably 200 pupils without overcrowding.

Students from the municipal school division also have the advantage of a division operated dormitory practically alongside the school where board work and food supplied at something below cost.

Wetaskiwin high school academic courses lead to university entrance while in addition there is a complete line of commercial courses which include stenography, bookkeeping, typewriting and general office training. There are extensive courses in shop work and for the girls there are courses in home economics which includes home-making, dress making and needlework.

The general report of the high school inspectors features the well balanced courses and the excellence of the teaching staff.

## Hail Storm Was Daysland's Worst

DAYSLAND, Aug. 19.—Consensus of opinion amongst farmers of the district is that Saturday's hail storm was the worst ever to hit the area. Many crops, southwest and northeast of the town were 100 per cent destroyed and hailstones as large as golf balls were common.

Trees were stripped of the leaves and gardens pounded into the ground. Several farmers reported windows broken.

**Cyclist Injured In Car Mishap**  
RED DEER, Aug. 19.—A young Red Deer man, Hector G. Quanz, suffered a mild concussion, when knocked from his bicycle, by a car driven by George B. Monahan, of North Red Deer, at the intersection of Galt Avenue and Ross Street Wednesday afternoon. Quanz was taken to the Red Deer municipal hospital, where his condition was reported to be good.

## IN OUR PROVINCE

6 EDMONTON BULLETIN, Friday, Aug. 19, 1948

## Seed Cleaning Plant To Operate This Fall

WETASKIWIN, Aug. 19.—Good progress is being made in the construction of the seed cleaning plant in Wetaskiwin and the plant will be in operation for the crop this fall.

All cement work, so far as foundations are concerned is completed and the superstructure is well advanced, two sections of it being ready for roofing, while the third section is rapidly approaching that stage. About 12 men are engaged on the job.

The Droard hotel, which is undergoing a major face-lifting operation, is boarded up on both 50th street and 50th avenue, with scaffolding up for the entire three stories. All the brick work, with which the building was faced, is being torn down and a new front will be constructed.

There will also be extensive changes to the interior so far as the rotunda and the main staircase are concerned. C. H. Witham and company of Edmonton are the contractors. The same firm is also putting up the \$25,000 office and warehouse building for the Northwestern Utilities Company here and have big crews on both jobs.

## Banff Meet Of Theatre Groups Ends

BANFF, Alta., Aug. 10.—(CP)—The Western Canada Theatre Conference yesterday closed a two-day intensive session at the Banff School of Fine Arts.

Donald Cameron, director, Wednesday, welcomed the 20 delegates comprising representatives from provincial drama leagues, extension departments, little theatres clubs and departments of education of the four western provinces.

The president's and secretary's reports were followed by reports on new activities in the four western provinces based on a provincial survey.

### ROUND TABLE

Round table discussions dealt with training of community drama leaders, to carry on drama work in the community and to encourage the teaching of drama to younger children in the schools or in community theatre groups.

It was also announced that all financial assistance is being withdrawn and that a \$500 contribution from each of the western provinces will be required.

While the Ontario regions must contribute a greater amount to the Dominion drama festival, it was felt that the new financial demands plus travelling expenses of the winners east might be too heavy a burden for the western regions.

The Barry Jackson trophy for the best long or short play by a Canadian author will be awarded by the regional adjudicator who is appointed by the Dominion drama festival as he travels to each stage.

DEER-LIGHTED says Mary Jane Hayes, 19-year-old Washington, D.C., beauty, as she learns she has been chosen "Miss Washington of 1940." She gets \$5000 in prizes and a chance at the "Miss America" title at Atlantic City next month.

region. Another adjudicator is being appointed.

K. W. Gordon, of the department of extension, University of Saskatchewan, Saskatoon, reported on the play-writing contest winners.

The first prize of \$75 went to E. McDiarmid, Hollywood, B.C., for his well constructed play "Growth."

The second of \$25 went to Eric Candy, Edmonton, for "Tonight of All Nights," a delightful comedy. Honorable mention went to Ken-Edna author, who is appointed by the regional adjudicator who is appointed by the Dominion drama festival as he travels to each stage.

## Inside Hollywood

By Bob Thomas

HOLLYWOOD—(AP)—What's wrong with the coffee in Europe?

For decades coffee-loving tourists have wondered this. So did Joseph Bulasky, who operates Coffee Dan's, where many of Hollywood's film and radio famous quaff their java. He has returned from a tour of Europe, where he studied continental coffee habits.

"Coffee... is taken lightly by Europeans," he scoffed.

"It is drunk black and very strong. Europeans like it that way because they drink coffee as a stimulant. Americans find European coffee bitter unless they add a lot of cream and sugar."

"Americans gulp coffee like war. Not so Europeans. They serve it in demi-tasse cups and sip it slowly."

"European coffee is steamed instead of brewed, which accounts for its strong flavor. The coffee urns in restaurants look like refineries with their intricate networks of pipes. You can't order a cup of coffee and expect to get it immediately. It has to be steamed individually."

Bulasky found the best coffee in Switzerland, the worst in Italy. He has a suggestion for coffee-lovers

## Great Foreign Film at Strand

Story of People in War Makes Great Italian Movie.

Bitter days of the invasion of Sicily and Italy are re-lived graphically in the Rossellini film, "Paisan," which will show Monday through Wednesday at the Strand Theatre.

Produced on location the cast is composed of American, British and German soldiers and men, women and children from all parts of Italy.

Dusky Carmela Sazio and Bill Tubbs, Robert Van Loon set the course for tragic comedy in the opening in which Carmela pilots Van Loon and American patrol through mine fields.

Maria Michi in the role of Francesca impresses in portrayal of street girl with GI on Rome's streets.

STRAND—"MOONRISE" and "CONQUEST OF CHEYENNE."

who are going to Europe: Take a jar of instant coffee along.

CAPSULE REVIEW

"Jolson Sings Again" (Col.) Is about as good a sequel as can be.

This one lacks the warmth and impact of the first Jolson story. But it is done with taste and an eye to entertainment. Adding to its success is another fine portrayal by Larry Parks, plus an excellent showing by Barbara Hale as the current Mrs. Jolson.

Los Angeles, Aug. 10.—(AP)—The incomparable Hiramshi Furuhachi of Japan put on another world-record-shattering performance last night to win the 400-metre free-style final in the United States AAU swimming meet.

Nipponese swept the first four places in the event. He was timed officially at 4:33 flat, 1/10 of a second under the listed world record.

IPSWICH, England.—(CP)—A long-term plan for East Suffolk roads, approved by the country council for submission to the transport ministry, provides for new roads and improvements which cannot be carried out for 30 years.

### EVEN HAPPENS ON A TRACTOR

OTTAWA, Aug. 10.—(CP)—(UP)—Failing to stop for a red traffic light, James Walburn was arrested and charged with drunken driving. He was at the controls of a tractor.

### India Granted \$34 Million Loan To Buy in Canada

WASHINGTON, Aug. 10.—(CP)—The World Bank yesterday granted a \$34,000,000 loan to India to finance purchase of locomotives, hoppers and other railway equipment from Canada and the United States. This is the bank's first loan to any country in Asia.

Eugene R. Black, president of the bank, said the equipment will be used for reconstruction and development of the railway owned and operated by the Indian government.

### 20-Foot Sloop Spans Ocean

DARTMOUTH, England, Aug. 10.—(CP)—A pair of modern "Christopher Columbus" yesterday completed an epic transatlantic voyage in their homemade 20 foot sloop. Brothers Stanley and Colin Smith sailed into this harbor in the southeast of England 42 days after setting out from Halifax.

Hundreds of people lined the docks at Stanley, 30, and Colin Smith, 20, berthed the little craft they built in Canada. When they stepped ashore, they told a story of storms and calms, of privation and loneliness during the voyage of the Nova Esperanza—one of the smallest craft to ever make the trans-Atlantic trip.

They refused a tow from motor-boats that whizzed around the last few miles into the harbor, but the sea calmed in the last few hundred yards and they had to accept.

## a Letter FROM A PATRON!

In all the years I have been attending the theatre, I have never been so deeply touched and impressed as I was by "LITTLE WOMEN".

My wife and I just lived with it and together we laughed and cried as it unfolded and rejoiced at its happy ending.

"LITTLE WOMEN" is a masterpiece in cast, direction, production, and in its exquisite technical color photography is DEFINITELY a 1940 ACADEMY AWARD CONTENDER. It deserves every success, and I for one wish it to you from the bottom of my heart.

Most sincerely,  
(name on request)

## Well at Hanna Hits Spotlight

By Don Flach

Discovery of oil in the area about six miles north of Hanna appears likely according to word received in Edmonton shortly before noon today. First test of the well made this morning failed because of mechanical difficulties and a second effort will be made later today. The well is being drilled by the North Continental and South Brazeau Oil Companies and contractor is the Regent Drilling Co. Indications for oil appear "very good," according to the report.

Flank Oils has reached the D2 formation in their fourth well in the Leduc field and is preparing to proceed with diamond coring which should get underway late today. It will start coring from the depth of 5,070 feet. First three wells drilled by the company on their Leduc acreage are producing.

Preliminary production figures from Hargal No. 2 which was swabbed in yesterday are still awaited. New Pacific No. 2 is being drilled to core for the Lower Cretaceous oil pool at Whitemud at 4,600 feet today. The level was found at the No. 1 well at 4,072 feet.

## GAS AT MIDLAND 2

At Redwater Texaco-McColl 11-10 is standing cemented. The well is being drilled at Huggett, southwest of the Golden Spike field is drilling ahead at 3,275 feet while Midland No. 2 in the Spruce Grove area on a Texaco farmout, is testing for gas at the 3,225 feet level. Test is being made after plugging back to this level with a cement squeeze job.

Another United States independent, Ferrell Oil Company, is headquartered in Corpus Christi, Texas, is entering the Alberta oil search. Headed by Roger Ferguson,

## U.S. Tourists Favor Woolens, Chinaware

TORONTO, Aug. 19.—(CP)—Retail merchants in Victoria, B.C., report 50 per cent of United States tourists' dollars is spent on chinaware, woolens and lawn goods attract the rest of the money.

Merchants, in a recent survey, said the reason is high prices charged for imported ceramics in the U.S. A \$25 Doulton figure here sells at \$40 below the border.

Ceramics, woolens, goods and linens are listed as the "big three" which sell best to the thousands of U.S. tourists who bring thousands of dollars to the picturesque capital every day.

The tourists are buying chiefly cashmere sweaters and imported linen. One merchant said he believed he can operate a store on just selling cashmere sweaters to tourists.

He said he'd sold over a thousand sweaters in one week. They sell between \$15 and \$25 also are being sold in considerable numbers to tourists. Imported towels are popular to those with faster purses.

One merchant voiced the opinion that if an embargo were placed on British imported woolens, good linen and ceramics, the number of U.S. tourists to Victoria would drop by 50 per cent.

## Goods Mark Up Further Gains

Utilities Top Industrials; Metals Improve, Oils Ease

TORONTO, Aug. 19.—(CP)—Goods edged slightly ahead in a narrow session on the Toronto Stock Exchange today. Activity was comparatively brisk but changes were small. Industrials fluctuated in a steady range and base metals tightened. Western oils were slightly easier. Volume was about 800,000 shares.

Senior producers firmed and advanced ranged up to about seven cents in junior goods. Most of the steam of yesterday's strong advance that carried gold to the highest level since December, 1947, had run out.

Utilities was brightened in the industrials as Union Gas led the way to a new high at 14 1/2. Papers, steel and foods tended easier while liquors, textiles and constructions showed strong gains.

Base metals firmed slightly. New Pacific was active in western oils.

Only gold mining shares resisted the general trend. They added fractions to a point.

Stocks, motors, rails and copper all were lower. Oils were unchanged to lower. Richfield, however, was higher and showed a fair amount of activity at times.

Today's decline was a continuation of Thursday's market, which was headed lower when the closing bell ended trading.

Stocks higher included Nickel Plate, Union Pacific, Kennecott, U.S. Steel, Youngstown Sheet and Tube, and General Motors.

Higher were Standard Gas and Electric & preferred, Phillips Morris, American Tobacco, and Canadian issues were higher with the exception of Canadian Pacific which eased 3/4. Motors gained 1/4. Dome Mines was up 1/4 and Hiram Walker added 1/4. Distillers Secura was unchanged. On the curb, Lake Shore was 1/4 higher.

FORMER district freight agent for Canadian Pacific Railway in Edmonton, A. M. Shields has been named general freight agent, sales and service, Toronto. Appointment is effective Sept. 1.

## Soybeans Hit Season Peak

CHICAGO, Aug. 19.—(AP)—Soybeans rolled on up to season peaks in an otherwise weak market on the Board of Trade today. The break-through of previous resistance was achieved by soybean futures to a good deal of new buying in today's session.

Active wheat futures closed 1/4-1/2 lower, September \$1.98 1/2-1/4, July in which trading started yesterday, was unchanged. Corn ended 1/4-1/2 lower, September \$1.21 1/2-1/4, July in which trading started yesterday, was unchanged. Soybean futures were 1/4-1/2 higher, September \$1.41 1/2-1/4, and soybeans were 1/4-1/2 higher, September \$1.41 1/2-1/4.

## Minor Changes Show In Oats and Barley

WINNIPEG, Aug. 19.—(CP)—Oats and barley futures moved narrowly in dull trade today on the Winnipeg Grain Exchange.

# Time Out

By Dick Beddoes

**SPARKS FROM THE ANVIL**  
When three of Edmonton's four athletic clubs (Maple Leafs, EAC and Canadians) agreed to merge to form a composite Junior A hockey club to represent this city in the Western Canada Junior Hockey League, the hatchet was buried in a shallow, well-marked grave.

This week EAC apparently dug up that hatchet and re-buried it in the backs of Canadians and Maple Leafs.

And as a result the best laid plans of the three-in-one team were dashed to bits.

Reason for EAC throwing a monkey wrench into the works appears to be a personal matter between certain members of the Clubmen and Canadians.

Consequently the all-for-one attitude which was necessary to make the co-operative enterprise function could not be attained.

Originally the three clubs had agreed to attempt to interest the Edmonton Exhibition Association in sponsoring the composite club.

However, possibility of that coming to pass now that EAC's are apparently swinging the hatchet at Canadians is remote.

Jim Paul, chief spokesman for the Exhibition Association, says yesterday:

"We were lucky not to get mixed up in the junior picture under the existing conditions between certain of the athletic clubs."

Nonetheless, several hardy souls in the EAC and Maple Leaf groups are still attempting to get together on the composite club entry. A meeting of interested parties is scheduled for today.

**THREE DOT STUFF**  
Frank Currie, the Silent, left Edmonton yesterday on a hockey visit to eastern Canada. If he had some lined up down there to play with the Flyers, he wasn't saying.

All of which makes this yarn they are all about Currie's reticence sound pretty plausible. When asked by an eager newshound last winter if the Flyers would play all their home games in the Arena Currie is supposed to have replied:

"Yes... and no."

Jim Stewart, one of four local ex-juniors who planned to play hockey next winter for Paisley Pirates of the Scottish Amateur League, has run into a snag.

Seems that the Maple Leaf Athletic club product is on the Montreal Canadian negotiation list.

When Canadian coach of Stewart's plans they kicked up a fuss and supposedly ordered him to remain in Canada. The recently organized Montreal farm team at Cincinnati is stocked with talent.

Add where-are-they-now department—Tony Mace is pitching for Regina.

Carl Mori now resides in the City and Stretch Garret has returned to Walla Walla, Washington.

The four used to toil for Calgary Buffs of the Big Four baseball wheel.

**HOT OFF THE GRID**  
Lune Coach Bill Radovich of the Eskimos gridders is following him as his strongest starting in-linen: Ends, Dmitri Goloubov and Jim Macrae. Tackles, himself and Gene Kish. Guards, Ken Moore and Red Stokes. A Centre, Andy Marefos.

Want a peek at the Grey Cup which Calgary spirited away from the east last fall? The silverware is on display in a local department store window.

Whatever became of the Edmonton scout in the Calgary Stampeder camp?

**All Star Game at Clarke Stadium**  
Summer School of Sports all-star baseball game between North Side and South Side will be played at Clarke Stadium tomorrow morning.

Following are the lineups:  
NORTH SIDES  
P. Roy Matsuda, Don Urquhart, George Townsend, 10, Jim O'Leary, 20, Jerry Shipchuk, 30, Bob Cowan, Jack Lamb, 40, Gene Snyder, 50, Sam Campbell, 60, Boris Pashch, 70, Joe Verbeke, 80, Steve Croston, 90, Tom Duggan.

SOUTH SIDES  
P. Giles McKee, Gord Siverton, 2, Wayne Mulligan, 10, Don Hume, 20, Terry Mahood, 30, Dennis Poppen, 40, Wally Brown, 50, Neil Herd, 60, Neil Knight, 70, George Wehr, 80, Keith Clugston, 90, Ron Rhinhat, Ken Heffe.

**SPORTS MENU**  
BASEBALL  
Big Four—Buffs at Cubs, Renfrew park, 8 o'clock.

TENNIS  
Highlands annual tournament, 6 o'clock.

LAWN BOWLING  
Edmonton Lawn Bowling Association triples competition, Garneau and Royal Regals, 2 o'clock.

FESTBALL  
South Side vs. Burns, Intermediate B playoffs, King and the Court vs. Anavets, exhibition, first game 7:15 p.m.

**Drabny Gains Net Final in England**  
SCARBOROUGH, England, Aug. 19—(AP)—Jaroslav Drabny, left-handed batsman, scratched from the four-man team in the final of the England championship yesterday.

Second, the British leader dropped what many experts consider his strongest pair, MacCreedy and Jim Bruen, into the No. 2 slot.

**'YA CAN'T HIT WHAT YA CAN'T SEE** what's use of keeping your eyes open,' appears to be feeling of Moose's Bob Meyers when it came to hitting Ed Feigner's pitches. Feigner and his touring U.S. team, consisting of four players, even struck 'em out blindfolded as Moose went under 10-4 at Kingway last night.

## King and His Court Give Amazing Fastball Display

**DAME FORTUNE SLAPS MARE**

VANCOUVER, Aug. 19—(CP)—Promising chestnut mare Ruffata, odds-on-favorite in the featured seventh race at Exhibition Park yesterday, was cut down as she ran wide on the first turn and her owner announced the four-year-old will never race again.

Lord Onslaught, at choice 8-1 odds scored a nose victory in the race over Valley Band and Mud Puddle.

Ruffata's trainer, Mrs. I. R. Hunter, claimed that Mud Puddle, chasing Ruffata to the first turn, pulled her out from the inside and ran up on the mare's legs when Ruffata ran wide.

**Shirley May Delays Swim**

WIGSTANT, France, Aug. 19—(UP)—Shirley May France and the 12 other aspiring English Channel swimmers called off their attempts yesterday when high winds whipped the 50-degree water into choppy waves.

One swimmer tried it yesterday. Joe Antonin Corinas, 22-year-old Cuban, but he had to give up after six hours because the cold brought on severe cramps.

Shirley May abandoned her attempt for at least a week after her father, Walter France, decided in Dover, England, that Shirley's wait for favorable weather had taken the edge off her training. She returned to Dover today.

Seven Egyptians who hope to swim the Channel individually and in relays also were waiting for the water to calm down before trying to beat the French record for the distance.

Dick Schermer, 21-year-old Dutch student, said he, too, would wait for better weather.

**Calgary Eric To Play Edmonton**

CALGARY, Aug. 19—(CP)—Eric last night edged out Hume 5-2 after 11 innings of play to advance into the senior men's semi-finals of the Alberta football association playoffs.

Eric will meet the winners of the Edmonton league in a series of opening here next Thursday. Winner of the series will advance into the finals against Letbridge.

**REGINA, Aug. 19—(CP)—**Regina Capitals and Moose Jaw Canucks last night moved into the final of the southern Saskatchewan baseball league playoffs. Caps won 6-5 over Notre Dame Hounds to take the best-of-three series with no victories and one game tied.

At Weyburn, the Canucks defeated Weyburn Heavers 3-2 to take the series in two straight contests.

**PLAY OPENS TODAY**

**British Golf Captain Pulls Two Surprises**

MAMARONECK, N.Y., Aug. 19—(AP)—British Walker Cup golfers came up with two surprises yesterday when they presented their pairings for today's opening Scotch foursomes in the international team matches at the Winged Foot.

First, Percy (Laddie) Lucas, left-handed captain of the invitational forces, scratched from the foursomes in favor of 19-year-old Arthur Perowne. Lucas said he was off his game.

Second, the British leader dropped what many experts consider his strongest pair, MacCreedy and Jim Bruen, into the No. 2 slot.

McCready and Bruen, going off 15 minutes later, will face the No. 2 American combination of Frank Stranahan and Charles (Chuck) Korn, who in their first tune-up over the full 36-hole Walker Cup route turned in a pair of great 69's.

Third duel will match Skeet Riegel and Ted Bahop, both former American amateur champions, against Cecil Ewing and Gerald Micklen. Riegel and Bahop shot 67-70 in their last work-out over the par 7, 6,390 yard course.

Going off last, the youngsters Perowne and his almost equally young partner, Korn, were with to be opposed by the two oldest players on the American side, Johnny Dawson and Bruce McCormick, both past the 40-mark. Bruce usually pairs with Thom, lending his steady influence to the combination.

**Tosses No-Hitter**

HALIFAX, Aug. 19—(CP)—Jerry Levinson, 21-year-old right-hander from Cape Cod, Mass., pitched a no-hitter, no run, 4-0 victory for Halifax Capitals over Liverpool Larruppers in a Halifax district Weyburn baseball league semi-final game last night.

In a championship consolation match yesterday, Highland's Herman Matfield defeated Amby Allard 3 and 1. Gordon Smithler scored a narrow one up victory over Leo LaClair in a first night round.

Herb Schultz got to the semi-final of the fourth round with a 10-0 victory.

## Sunday Busy Day For Footballers

To Scrimmage in Morning And Meet Fans at Night

Edmonton Eskimo football players will have a busy day Sunday.

First off the local entry in the Western Conference will hold a scrimmage game at Clarke Stadium in the morning. Reds will likely oppose Whites in this engagement.

In the evening coach Annis Stukus and his charges will be introduced to the fans attending a mammoth rally at the Starline drive-in theatre.

The rally promises to be a gala affair. Gates open at 7:30 and a comedy and musical show follows the entertainment an hour later.

Included on the program is Amies for Gungol and his Hibilly band, as well as community singing. Irresponsible John Michaels set as emcee.

Mayor Harry Ainlay will make a short address, following which Stukus and the Esks will be presented to the audience.

**EVERYTHING FREE**  
The two-hour show, which is free to everyone, will conclude with a moving picture on football and football games.

Manager Al Anderson stresses the fact that fans should come early to insure parking space for their cars.

For many, many moons now Edmonton football moguls have been doing their utmost (so they say) to bring the western Canada football championship to the oil capital of Canada.

However, each year it's the same old story—our teams seem to fall victims to anything that comes along.

But here's a sure-fire way for Edmonton to win the elusive title. All we have to do is to sign King I. Feigner and his touring U.S. team, which consists of four footballers.

Actually, the King himself would be enough to insure Edmonton the crown. The things he did with the moles as the invaders walloped Moose 10-4 in an exhibition game at Kingway Park last night were phenomenal.

**LEGIONNAIRES WIN**  
In opening game, Legionnaires whipped Singers 5-3 to advance to the Northern Alberta final against Precisions. Best-of-three wind-up round starts Saturday night.

Cream of North American women golfers will tee off Monday over the lush Capilano golf course here for the Duchers of Connaught trophy, emblematic of the women's championship.

This morning 134 ladies opened play in the Canadian closed open championship—restricted to players other than those on inter-provincial golf teams. Seven teams start their 36-hole medal aggregate event this afternoon.

Prairie golfers report they found Capilano's hills and dunes tough to negotiate in practice rounds today.

Defending champion Grace Lenzyk, Newington, Conn., probably the outstanding woman amateur today, is rated top threat for the open title.

Yesterday's results:  
MOS, Moir def. Hollands 6-3, 6-2; Mos, Moir def. 6-3, 6-4 in semi-final match.

LOS, Sandro de Roebrook 6-0, 6-0; Sandro de Roebrook def. Rydman 6-0, 6-0.

MOD, Ward-Edgar def. Moir-Hollands 6-2, 6-4; Moir-Hollands def. Moir-Hollands 6-2, 6-4; Moir-Hollands def. Moir-Hollands 6-2, 6-4.

MOD, O'Brien-Lester 6-0, 6-0; O'Brien-Lester def. O'Brien-Lester 6-0, 6-0; O'Brien-Lester def. O'Brien-Lester 6-0, 6-0.

MOD, O'Brien-Lester 6-0, 6-0; O'Brien-Lester def. O'Brien-Lester 6-0, 6-0; O'Brien-Lester def. O'Brien-Lester 6-0, 6-0.

MOD, O'Brien-Lester 6-0, 6-0; O'Brien-Lester def. O'Brien-Lester 6-0, 6-0; O'Brien-Lester def. O'Brien-Lester 6-0, 6-0.

MOD, O'Brien-Lester 6-0, 6-0; O'Brien-Lester def. O'Brien-Lester 6-0, 6-0; O'Brien-Lester def. O'Brien-Lester 6-0, 6-0.

# Benefit Baseball Contest No Sight for Sore Eyes

## Hometowners Triumph Over Out of Town Outfit

By Dick Beddoes

Last night's baseball act at Renfrew Park was unheard, unprepared, and should have been uncalled for. It set the Progressive Baseball Movement Among Teen Aged back 11 years.

The game was a crazy carnival affair which was billed as a benefit game for the Junior Baseball League. The Juniors will benefit financially. It is true, but all those bright young lads in the stands who witnessed the Hometowners and Out of Towners ham up the act went home with a single thought in mind: "If this is baseball we want to grow up to be pinhole players."

YAK, YAK AND YAK  
And that's bad, but because if there is anything this town needs is more native baseball players and fewer pinhole players.

You can't really blame the kids for wanting to forget the great game of baseball, as Mr. J. Ducey would say, after watching last evening's appalling performance.

For the players had a gay, frivolous time of it. The Out of Towners, a group of whimsical men, played mania for hitting the ball half the time and kicking it the other half, complicated by errors.

The Home Towners, who will be lucky to call this fair city home, sweet home today after last night's show, booted the ball six times.

**EDWARDS BUSY MAN**  
Most active man on the field from the score's point of view was Out of Town manager, Ed Edwards. He was kept busy at night by chasing to the press box to announce changes in his lineup.

In all, Mr. Edwards used 11 players, exclusive of the two puppy dogs who moved in to help Mr. Bob Peterson play right field in the seventh inning.

There were few smart plays and a lot of whacky ones. Mr. Eddie Morris and light-hearted Ted Tapp pulled off the fielding gems of the night.

The same Tapp collected two hits, including a double.

Greatest affinity for errors was displayed by Mr. Ken Clarkson. Out of Towners who dropped the ball four times while the official scorer was looking.

Clarkson had to hustle to win the Error Title from William Georgette and Des O'Connor. He finished with three bunglees each.

"Oom" Paul Peterson was somewhat good in the strikeout department and won the day with five. He also topped all rivals in the bases-on-balls race by issuing three walks.

It is expected that all players last night's rivalry will settle back to the grim business of winning baseball games as Eskimos and Cubs today.

Oh yes, the score: Hometowners 9, Out of Towners 8.

**Legion, RCAF In Soccer Clash**

North Side Legion meets RCAF at Clarke Stadium Saturday night in a regular senior league soccer game starting at 7 o'clock.

Following is the lineup for North Side Legion:

Bernie Giles, Jimmy Frew, Harry Skidmore, George Ross, Dave Peacock, Jimmy Anderson, Bob Graham, Amy Moore, Dave Gillings, Ted Louie, George Burton.

**Donates Trophy**

Mrs. Frances Kerrison recently donated a trophy to the Western Lawn Bowling club in memory of her late husband, E. E. Kerrison, a former club member.

A team skipped by H. Greenwood won the trophy last weekend and will retain possession for one year.

**LOOKS LIKE** it's an off-tackle thrust as Ralph Kinser races for second. It's still hot and baseball season, however, and Pirates' slugger left fielder is being forced out by Wayne Terwilliger, racing towards bag. Left Smalley of Chicago Cubs stands ready.

The duck season in the province will open on Sept. 17. The daily limit will be 8 ducks per day for men and 5 for women. The season will close on Nov. 15.

## Reds Failing To Jam CBC Broadcasts

Communists in Canada are failing to jam CBC broadcasts, according to a statement by the CBC. The statement says that the communists have been unable to interfere with the broadcasts of the CBC.

**CURCH MUSIC** is important, and summer school religion course is receiving lectures in it from Richard Carroll, 35-year-old organist and choirmaster of Robertson Church in Edmonton. Mr. Carroll is also secretary of Students' Christian Movement on University Campus here, and now minister at Spirit River. About 70 delegates are attending the religion course.

## Credit Men Plan Drive To Educate Time-Buyers

More and more people are buying on credit. And what businessmen want to know is, will those people pay their bills on time?

Because so many on-credit-buyers are purchasing "on time" for the first time, they are sometimes slow to realize the importance of paying their bills on time.

The credit men are planning a drive to educate time-buyers. They will be sending out a series of newspaper advertisements, stressing the importance of prompt payment of bills.

## New Bank Branch for Jasper Ave.

The new branch of the Bank of Montreal on Jasper Ave. will be opened in the near future.

## U.S. Population Up

The U.S. population is growing at the rate of 20,000 a day.

# SHOPPING GUIDE

## New Patterns, Yarns For Knitted Nifties

By Bea Thrifty

Scandinavian ski-wear is definitely a la mode on the skating rinks and mountain slopes of Canada.

Traditional designs, evolved by centuries of women who died and spun their own yarn, are presented in an attractive new knitting book.

Easy to follow directions with full page charts will help your nimble fingers whip up winter wear for the whole family.

Ten patterns feature geometric and snowflake designs, as well as the reindeer, evergreen and dancing figure motifs which are so typical of the Scandinavian work.

Though these patterns come from Sweden and Norway and are written with Swedish subtitles, they have been adapted to suit types of wool available in this country.

Available by the same knitting authority is a book of Scandinavian ski accessories.

For the sum of 55 cents you can find out how to make stocking caps, ski helmets, socks, Alpine hose, after-ski socks, mitts and gloves.

The small, conventional patterns have been simplified to the extent that seldom are more than two colors used at once.

To warm his eyes as well as his toes, make husband a pair of Argyle socks from the new sock pattern book for fall, published by a well-known wool goods store.

Brightly illustrated, the directions are clear enough for a novice knitter.

Remember the clinging, tubular knitted dresses of yesterday?

Even if the one you had 'way back then causes you to view all knitted dress patterns with alarm and suspicion, you'll be tempted by their fashion this fall.

In one fifty cent book, everything from a sheer-voiced evening dress to a sport outfit is described.

My favorite was in raspberry boucle, with cardigan top, Peter Pan collar and tapered skirt.

Be careful, though! Thirty-eight balls of expensive wool is a lot to waste if you're one too confident of your prowess with the progs.

There'll be no trouble finding wool to make all these things I'm telling you about.

But before you decide, take a look at the newest thing in yarn-nylon.

First shipment of nylon yarn, in pastel colors only, has recently come into the city. These are small right now, but local merchants say there'll be more later on, and with a bigger variety of colors.

The yarn is very fine, and once used for 45 cents.

Shrink-proof, moth-proof, pliable, nondestructible, washable, quick-drying, cosy, warm and colorful! What more would you ask of yarn?

Things that come to my mind is—wouldn't it be perfect for tiny baby garments?

4892  
SIZES 12-20, 40

### Patterns

By Anne Adams  
Easiest thing in the world to sew! One piece, plus flounce or rufflet! Best fit in the world too, back-placket takes care of that. Sew both versions.

Pattern 4892, sizes 12, 14, 16, 18, 20, 40. Size 16 takes 3 yds. 39-inch. Embroidery transfer included.

This pattern, easy to use, simple to sew, is tested for fit. Has come to the Illustrated Instructions.

Sew twenty-five cents (25c) in coins (stamps cannot be accepted) for this pattern. Print plainly size, name, address, style number, care of The Edmonton Bulletin, Pattern Department, 60 Front Street, W., Toronto, 1-4, Ont. Please allow week or ten days for delivery.

7303

Household Arts  
By Alice Brooks  
The biggest needlework news in years! Now anyone can do smocking! Pattern shows how threads follow through. Five new designs. Do smocking first then use any pattern to cut. Pattern 7303, 10 directions: charts for 5 designs.

Our improved pattern—visual with easy-to-use chart and photos and machine directions—makes needlework easy.

Sew twenty-five cents in coins for this pattern (stamps cannot be accepted) to Edmonton Bulletin, Household Arts Dept., 60 Front Street, W., Toronto, 1-4, Ontario. Please allow a week or ten days for delivery.

# WHY GROW OLD

## Exercise Increases Size of Your Calves

By Josephine Lowman

Q. "Since summer is here I realize that my figure is not good. I am 5 feet, 6 1/2 inches tall and weight 126 pounds. My bust measures 32 inches, my waist 24 inches and my hips 36 inches. My legs are heavy enough but my body is thin. I would appreciate your help."

A. A gain of five pounds would be helpful and would not make you fat. You are really in good proportion.

Q. "Will you please give me a good relaxing exercise for my tummy? I have tried several but they just did not do any good."

A. Perhaps you did not do them long enough, or maybe you did them one day and skipped the next two. Anyway, I know this one will do the work if you do it faithfully.

Life on the floor on your back with your arms resting on the floor overhead, legs straight. Bend both knees up close to your abdomen. Straighten your legs toward the ceiling. Keep your knees stiff and slowly lower your legs to the floor. Continue stretching out on the floor after lowering your legs. Do this twenty times morning and twenty times at night.

Q. "I want to add inches to my calves and also straighten my ankles. Could you give me just about two exercises which will help?"

A. Stand tall. Rise high on your toes lifting your heels as far from the floor as you can. You will have to do this about 25 times morning and 25 times at night.

For the arches: Stand erect. Walk about the room on the outside of your feet. Also do this one: Stand on a large handkerchief. Grip with your toes, trying to pull as the handkerchief under your instep as you can. Repeat several times a day.

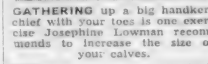

Q. "Could you please tell me if there is any way of getting rid of stretch marks and hair under my arms? I am 12 and have tried every way I know of. I use cream on my arms and get ten hours but still they stay. I am a female underwear. Will you please help me?"

First, you should gain that 15 pounds. This would make a great difference. Look well to your nutrition. Be sure you are eating a good balanced diet. You should also use a good hair cream on your arms.

The large marks under your arms and on your thighs might be due to an allergy. Maybe you are allergic to feathers or down or capok of which your pillow are made or some food or cosmetic. Get more outdoor exercise of a mild kind, walking or swimming.

Q. "I have lost quite a bit. Will you please tell me in your column how much more I should lose? I am 5 feet and 4 1/2 inches tall and weigh 138 pounds. My bust measures 34 inches, my waist 28 inches and hips 38 inches. I am 20 years old."

A. You should lose about ten pounds and take waist and hip reducing exercises.

GATHERING UP a big handkerchief with your toes is one exercise Josephine Lowman recommends to increase the size of your calves.

### Tobe on Fashion—EVERY WOMAN NEEDS A CASUAL COAT

It's been so long since real casual coats were in fashion that I think every woman is ready for one. For a casual coat you can have.

It's been so long since real casual coats were in fashion that I think every woman is ready for one. For a casual coat you can have.

Casual coats must be roomy and comfortable, either boxy or fitted. But more often than not they are worn with a belt that gives one the new fitted coat look.

The Greeks adopted the use of the sundial from the Babylonians

BLACKHEADS  
Use only half as much VEL as soap...

Now Improved VEL Does This for You:  
1 VEL cuts dishwashing time in half.  
2 Cuts grease, banishes soap suds.  
3 Gives you soft water washing.  
4 Safer for woollens, stockings, lingerie.  
5 Milder to hands.

# horoscope

By FRANCES DRAKE

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

FOR SATURDAY, AUG. 20, 1949  
March 21 to April 20 (Aries)—Instincts look more important now. Money advice, study with care, each move. You are capable and should move out on right line of action.

April 21 to May 20 (Taurus)—Excellent configurations for new ties, taking on new methods, new business well planned. Substantial gains can be expected, especially during P.M. Romance favored in the turn.

May 21 to June 20 (Gemini)—General business and industry view consistent. Trade, credit, money under your good chances. Prosperity, all results fit. Temper if fit is consistent.

June 21 to July 20 (Cancer)—A.M. may find opposition from competitors, even close friends. Use the diplomatic, handle things right and come out the better all around. Don't side high, low and thoughtless.

July 21 to August 20 (Leo)—Planetary influences stimulating for new outlook, financial, business matters, professional efforts. Apply your talents and astute mind. News may assist considerably.

August 21 to September 20 (Virgo)—Under a good omen to caution any reaction to prohibition, new life. Day to remember 21 to remember 23 (Libra)—Emphasis on conservation of time, money and energy. Be alert and ready to withstand intrigues, changes and your advance against. Heart interests favorable.

September 21 to October 20 (Scorpio)—Considerable courage and enthusiasm may be expected and you will find an unusual day, with unusual things that may happen and be pleasing. On Sunday.

October 21 to November 20 (Sagittarius)—Tricky, temper and additional impetus to another day like Scorpio's. Provide mental treatment, be patient, somewhat forewarned, and gain through good opportunity.

November 21 to December 20 (Capricorn)—New formula, be safely different, try the new (if not the improvement). Attract attention, but cautiously. You can be successful at times.

December 21 to January 20 (Aquarius)—You will have to give day's problems really smart treatment. Study and firmly execute tasks. A sprightly, know-how attitude will help. Proceed squarely to win your share.

January 21 to March 20 (Pisces)—Some untoward influences to guard against. Heart interests need kidglove handling.

You born today: Solution for serious sometimes, untidy, but also eager to help and use some assets. Can go far in this world of talent; are active, fun-loving, kind, intelligent, education, good companions, relation of friendship.

You will always have high ideals, don't let them be lowered and let them down. Avoid adding debts, responsibilities with money, child, or any other thing that will bring you down.

Before 1801 there was no official census of the population of either England or Scotland, and it was not until 1831 that a census was made of Ireland.

# YOUR BABY AND MINE

## Gradual Change Best For Baby's Set Habits

By Myrtle Meyer Eldred

All habits connected with sleep become very fixed for them make a pattern to which the child becomes addicted. Thus all sucking habits engaged in at sleepy time become part of the pattern of going to sleep and the child is unable to relax and drop off without the thumb or sleeve or blanket in mouth.

Here is a baby who has been nursed lying down and now cannot go to sleep without his mother lying beside him, even though he has weaned from the breast.

Mrs. T.D.—I might suggest that you taper off the attention at bedtime. Change the whole pattern by building the baby as he takes his bottle. Then when you put him down, stand beside him, put your hand on his head, and leave him for a few minutes. Keep subtracting from the time you spend lying down, and he should become accustomed to drifting off without your physical presence.

Mrs. E.D.G.—A baby who was nineteen inches long at birth and has added seven inches by the sixth month is doing very well indeed. The usual gain in length the first year is nine inches. You may be sure, if he is well-fed, that he will gain that much the next six months.

Probably, when you go visiting, the noises and the extra attention cause so much excitement that he is uninterested in food. Even though children profit by having new experiences; it is as well with young children to keep them to a regular routine for the sake of avoiding just this reaction.

Mrs. R. E., the emphasis today is on soothing a baby when he cries so that he gets a warm sense of the parents' love and protection. This service is important when the baby is young, for as he grows he will develop an increasing ability to get on without so much maternal attention.

In this case, your friend is all right.
